Registration: From 8.45

Race Briefing: 9.45

Race description: The race should take Elite riders about 50-60 minutes, slower if it is wet. The race will take the form of a time trial. Riders will start at 30 seconds or 1 minute intervals, depending on numbers. Elite/expert will start first at 10AM, followed by Sport A, Sport B, Sport Women, then Juniors. As this is an individual time trial riders must give way by moving left when requested (and practicable) by a following rider. As riders will start at intervals there should not be many overtaking riders encountered.

Course description: The course is approximately 13km long and consists of about 7km of single track. The remainder is bush tracks or dirt road. The bush tracks will be traffic free with plenty of passing opportunities. The single track is tight in places but the course is rideable for anyone with good mountain bike skills. The course is undulating, with a few steep, but rideable uphills. There are a few drop-offs, but they will be manageable by most riders. The start and finish are within 20 meters of each other. The course includes all of last year's course and half of the 6 hour Enduro course, plus a kilometer of new track

Presentations: These will be held as soon as possible after the last competitor finishes. Spot prizes will be on offer.
